

Ross Lake Township Road Report #85

Monday, May 11, 2026

The roads are in good condition after the first grading of the year. Some of the culdesacs are a little rough but definately passable. Beavers werer blocking the culverts on the Lens road. Four Beavers were trapped and the culverts were cleared. Frost has caused some bituminous breakup on Cuyuna trail that will require a major section to be repaved. Contractors have been contacted for bids.

Township Road	Miles	Inspected Date	Condition	Note
Island Lake Road	1.9	5/11/26	√
